Silent Travelers: Germs, Genes, and the Immigrant Menace Alan M. Kraut

Epidemics and immigrants have suffered a lethal association in the public mind, from the Irish in New York wrongly blamed for the cholera epidemic of 1832 and Chinese in San Francisco vilified for causing the bubonic plague in 1900, to Haitians in Miami stigmatized as AIDS carriers in the 1980s. *Silent Travelers* vividly describes these and many other episodes of medicalized prejudice and analyzes their impact on public health policy and beyond. The book shows clearly how the equation of disease with outsiders and illness with genetic inferiority broadly affected not only immigration policy and health care but even the workplace and schools. The first synthesis of immigration history and the history of medicine, *Silent Travelers* is also a deeply human story, enriched by the voices of immigrants themselves. Irish, Italian, Jewish, Latino, Chinese, and Cambodian newcomers among others grapple in these pages with the mysteries of modern medicine and American prejudice. Anecdotes about famous and little-known figures in the annals of public health abound, from immigrant physicians such as Maurice Fishberg and Antonio Stella who struggled to mediate between the cherished Old World beliefs and practices of their patients and their own state-of-the-art medical science, to "Typhoid Mary" and the inspiring example of Mother Cabrini. Alan M. Kraut tells of the newcomers founding of hospitals to care for their own the "Halls of Great Peace" (actually little more than hovels where lepers could go to die) set up by Chinese immigrants; the establishment of St. Vincent's Hospital in New York as an institution sensitive to the needs of Catholic patients; and the creation of a tuberculosis sanitarium in Denver by Eastern European Jewish tradespeople who managed to scrape together \$1.20 in contributions at their first meeting. Tapping into a rich array of sources - from turn-of-the-century government records to an advice book aimed at Italians financed by the DAR, from the photog

Irvin Ashbaugh:

Spent a free time and energy to be fun activity to try and do! A lot of people spent their down time with their family, or all their friends. Usually they performing activity like watching television, going to beach, or picnic inside park. They actually doing ditto every week. Do you feel it? Do you need to something different to fill your personal free time/ holiday? Could be reading a book can be option to fill your no cost time/ holiday. The first thing you will ask may be what kinds of e-book that you should read. If you want to consider look for book, may be the publication untitled Silent Travelers: Germs, Genes, and the Immigrant Menace can be very good book to read. May be it is usually best activity to you.

Heidi Crenshaw:

As a university student exactly feel bored to be able to reading. If their teacher expected them to go to the library or make summary for some reserve, they are complained. Just minor students that has reading's heart and soul or real their passion. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that studying is not important, boring along with can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we want. Likewise word says, ways to

reach Chinese's country. Therefore this Silent Travelers: Germs, Genes, and the Immigrant Menace can make you experience more interested to read.
