## Thorstein Veblen and the Revival of Free Market Capitalism

Thorstein Veblen was a leading observer and analyst of capitalism. Featuring original essays by renowned Veblen scholars, this volume revisits his legacy. The contributors note that, with the restoration of laissez faire as the governing principle of contemporary economic ideology and policy-making, his insights are once again timely. They reexamine and expand upon the subjects that Veblen studied, including: private property, markets, culture, corporations, democracy, institutions, and the theory of capital.
