Learn the life and business lessons of:

Steve Jobs, Richard Branson, Tony Robbins, Warren Buffett, Bill Gates, Arnold Schwarzenegger, Elon Musk, Donald Trump, Oprah Winfrey and Mark Zuckerberg

What if you could sit down to dine with some of the world's most successful entrepreneurs and have a conversation with them? What would you ask them? What business ideas and life lessons would they give to you? Of course, it was not possible to deliver any one of these rock star entrepreneurs to your dinner table- no matter who was doing the cooking or what you were serving.

But I could be your ambassador, and I will present you in my book - 10 of the world greatest living visionaries of our time, people who have truly changed the way we live and think, the way we work and play, the way we now see the world itself. Some might even be controversial and present us with some bad examples. The book includes a collection of 10 books. Each book has 50 Life and Business lessons from a very famous and successful person. One thing I've learned over the years of being an entrepreneur is that if you don't have passion for the business you are doing, then the probability of not making it is very high. I'm here to fuel that passion by giving you some great ideas you can depend on. The goal is to get the reader motivated and inspired to take action and succeed in life. I was really inspired to start working for myself and be my own boss when I read Richard Branson's biography, and the one on Steve Jobs really made me want to be the best at what I do, but reading these long books more than 500 pages each, is really time consuming, so I put the most important information about each person into a short and digestible form so that you can get the most value from the book in the shortest period of time. In summary, you will learn the most important things about each person; they will get you motivated, and they will save your time!
