## **Don't Be Stupid about Investing: DontBeStupid.club Answers to Stocks, Bonds, Mutual Funds, Real Estate and Retirement** H. Granville James

Investing is a game. We play with real money. The game is set up and run by people who don't care about you. They want your money. And they know people will invest stupidly if they are offered good stories and enough opportunities. You need to Think for Yourself. You can win this game, but only if you make smart decisions. This is not the same repetitious advice you read everywhere else. This is for when you figure out that commonly accepted prattle doesn't work as promised. You're not doing as well as you expected. You might even notice the people selling investments or managing your 401K are doing better than you. But it's your money. You don't have to do what everyone else does. Why not step away from the herd and Think For Yourself? When you're done reading this book, you will be a better investor. It's inevitable. Something in this book will connect with you. Maybe more than one thing... maybe everything. You will make better investment decisions when you're done reading. We don't give you "ten tips" or ways to "beat" the system. We're not going to offer you the fantasy that you can become rich by sitting at home and outsmarting the rest of the world trading stocks. And we won't sell you the dream that you can retire and spend money for 30 or 40 years if you just start investing while you're young enough. All of that is just stupid. Why waste your time and money? We will give you the ability to choose your own investments and maximize your returns. You can make money for yourself instead of letting everyone else profit from your investing efforts. You've been told to invest since before you were old enough to remember. If you listen, you're supposed to spend your whole life investing. This brainwashing started before you were old enough to know better. And now you're abnormal if you think differently. But going along with the herd is stupid most of the time, and especially in the world of investing. We'll tell you a lot about investing in this book. You'll probably learn something new because this is not the same lightweight advice you've heard before. You will certainly learn the best source for good answers is yourself. No one cares about your Money like you do. We Simplify. We make investing easy. There is no reason for it to be difficult. And there's no reason you should be another victim of the herd mentality. Why not spend a couple hours with us now and make better investing decisions forever? You already know that's a good investment. Read now and be wealthier for the rest of your life.
