American Sign Language Green Books, Teacher's Curriculum (American Sign Language Series)

Charlotte Baker-Shenk

Best known as the Green Books, the American Sign Language books provide teachers and students of American Sign Language (ASL) with the complete means for learning about the culture, community, and the native language of Deaf people. A group of 15 ASL teachers and linguists reviewed all five books to ensure that they were accurate and easy to comprehend. This practical textbook details the framework for understanding and using second-language teaching techniques for ASL. Using this interactive approach to teaching language, instructors can create situations to help students learn how to converse in ASL. Conducting dialogues and drills in the classroom is explained fully; activities and exercises to supplement dialogues and drills in student textbooks are provided.
