Vicki Been is Professor of Law at NYU and a highly respected scholar and authority on the takings clause, impact fees, and environmental justice. A thematic framework illuminates the connections among multiple topics under land law and gives attention to the factual and political context of the cases and aftermath of decisions. Dynamic pedagogy features original introductory text, cases, notes, excerpts from law review articles, and visual aids (maps, charts, graphs) throughout.

Joining the team for the **Fourth Edition** are Roderick M. Hills (New York University) and Christopher Serkin (Vanderbilt), whose publications have appeared in many leading law reviews, including the Columbia Law Review and the Harvard Law Review. . The Fourth Edition introduces new material on sustainable development as well as a new focus on the mechanics of modern zoning regulations. Post-Kelo eminent domain reform efforts are discussed, and there are expanded comparisons with foreign law.
