A thousand years ago, Angela was born into a race of warriors with the ability to fly. Recruited at her death to help fulfill a prophecy, she travels through the Gateway to a mechanical future dominated by airships on the edge of war. Now the last of her kind, Angela has been promised a second chance at life, if she plays her part.

Kail has a simple life, and it doesn't include magic and forgotten prophecies. Magic ruled for centuries, but as it died out a new industry of alchemy and machines rose in its place. After Angela arrives bruised and battered the military follows bringing enemies that Kail didn't know he had.

As the last of the vanguard mage class, General Therion can pervert magic to do unspeakable things. He wants what Kail possesses at any cost: a birthright of powerful magic that also includes the secrets of the Gateway. If Therion can seize what Kail has, he would have sweeping control over time and even death.

Sky Mages and the Gateway of Time is the first novel of the Sky Mage trilogy.
