The Navajo Nation is the largest of over 560 federally recognized indigenous entities in the United States today. Navajo history and politics thus serve as a model for understanding American Indian issues across the board ranging from the tribal-federal relationship to contemporary land disputes, taxation policies, and Indian gaming challenges. This revised edition of a recent text includes new census data along with a new introduction and an updated timeline of Dine political history. The text's thoroughgoing analysis of Navajo political institutions and processes is amplified by a consideration of the distinctive Navajo culture. Presented in the context of indigenous societies everywhere, the book offers a way to explore the culture of politics and the politics of culture confronted by all native peoples.
