*Martin Heidegger*

**Basic Concepts of Aristotelian Philosophy (Studies in Continental Thought)** Martin Heidegger

Volume 18 of Martin Heidegger's collected works presents his important 1924 Marburg lectures which anticipate much of the revolutionary thinking that he subsequently articulated in *Being and Time*. Here are the seeds of the ideas that would become Heidegger's unique phenomenology. Heidegger interprets Aristotle's *Rhetoric* and looks closely at the Greek notion of *pathos*. These lectures offer special insight into the development of his concepts of care and concern, being-at-hand, being-in-the-world, and attunement, which were later elaborated in *Being and Time*. Available in English for the first time, they make a significant contribution to ancient philosophy, Aristotle studies, Continental philosophy, and phenomenology.
