Night Moves was written in 1985, so there are a few technologically dated details, but overall it is a standard romance novel sure to be a crowd pleaser.

Maggie Fitzgerald is a famous musician and composer, as well as the daughter of equally famous parents, who moves from the entertainment hub of Los Angeles to the quiet town of Morganville, Maryland. Having purchased a house that has stood vacant for a decade, Maggie hopes that the physical separation from Los Angeles and the sad memories that the city holds will direct her focus – both into the house as an ongoing project and to her music.

What she does not anticipate is falling in love with the local landscaper and discovering the remains of one of the most well-known and most-disliked men in town on her property. Maggie struggles to come to terms with her feelings for Cliff – the landscaper—in the distant wake of her husband’s death, renovating her new house, and coping with the developments of a murder mystery, exacerbated by the fast-flying gossip of a small town.
