SolidWorks 2010 for Designers Prof. Sham Tickoo Purdue Univ. and CADCIM Technologies

SolidWorks 2010 for Designers is a comprehensive textbook that introduces the users to SolidWorks, a feature-based 3D parametric solid modeling software. The textbook covers all major environments of SolidWorks and provides a thorough explanation of all tools, options, and their applications to create real-world products. About 55 mechanical engineering industry examples are used as tutorials and an additional 35 as exercises to ensure that the users can relate their knowledge and understand the design techniques used in the industry to design a product.

After reading the textbook, the users will be able to create parts, assemblies, drawing views with bill of materials, and learn the editing techniques that are essential to make a successful design. Also, in this textbook, the author emphasizes on the solid modeling techniques that improve the productivity and efficiency of the users.

Course outline listing the topics that will be covered in the basic and advanced classes

About the Authors

CADCIM Technologies, Prof. Sham Tickoo of Purdue University Calumet, and the team of dedicated contributing authors at CADCIM Technologies are committed to bring you the best textbooks and **free teaching and learning resources** on Computer Aided Design and Manufacturing (CAD/CAM), Computer Programming and Applications, GIS, Civil, Computer Animations, and related technologies. We strive to be the first and the best. That is our promise and our goal. Our team of authors consists of highly qualified and experienced Engineers and Programmers who have a strong academic and industrial background. They understand the needs of the students, the faculty, and the challenges the students face when they start working in industry. All our books have been structured in a way that facilitates teaching and learning, and also exposes students to real-world applications. The textbooks, apart from providing comprehensive study material, are well appreciated for the simplicity of content, clarity of style, and the in-depth coverage of the subject.

From reader reviews:

Patricia Welling: Hey guys, do you would like to finds a new book you just read? May be the book with the subject SolidWorks 2010 for Designers suitable to you? The actual book was written by renowned writer in this era. The actual book untitled SolidWorks 2010 for Designers is the main one of several books that will everyone read now. That book was inspired many people in the world. When you read this publication you will enter the new age that you ever know prior to. The author explained their strategy in the simple way, consequently all of people can easily to understand the core of this publication. This book will give you a wide range of information about this world now. To help you to see the represented of the world within this book.

Katie Cardiel: The publication untitled SolidWorks 2010 for Designers is the book that recommended to you to learn. You can see the quality of the reserve content that will be shown to a person. The language that writer use to explained their way of doing something is easily to understand. The article author was did a lot of investigation when write the book, and so the information that they share to your account is absolutely accurate. You also could possibly get the e-book of SolidWorks 2010 for Designers from the publisher to make you a lot more enjoy free time.

Jessie Henricks: In this period globalization it is important to someone to get information. The information will make anyone to understand the condition of the world. The condition of the world makes the information quicker to share. You can find a lot of references to get information example: internet, paper, book, and soon. You will see that now, a lot of publisher this print many kinds of book. Often the book that recommended for you is SolidWorks 2010 for Designers this publication consist a lot of the information from the condition of this world now. This particular book was represented how do the world has grown up. The words styles that writer require to explain it is easy to understand. The particular writer made some study when he makes this book. Honestly, that is why this book acceptable all of you.

David Yoon: Is it you who having spare time in that case spend it whole day through watching television programs or just lying on the bed? Do you need something new? This SolidWorks 2010 for Designers can be the answer, oh how comes? A fresh book you know. You are thus out of date, spending your spare time by reading in this brand-new era is common not a nerd activity. So what these books have than the others?
