The Constitutional History of England from 1760 to 1860 Charles Duke Yonge M.A.

But the Reform Bill conferred political power on classes which had never before been admitted to be entitled to it; and their enfranchisement could not fail to give a wholly new and democratic tinge to the government, which has been visible in its effect on the policy of all subsequent administrations. And, besides this great measure, the passing of which has often been called a new Revolution, and the other reforms, municipal and ecclesiastical, which were its immediate and almost inevitable fruits, the century which followed the accession of George III. was also marked by the Irish Union, the abolition of slavery, the establishment of the principle of universal religious toleration; the loss of one great collection of colonies, the plantation of and grant of constitutions to others of not inferior magnitude, which had not even come into existence at its commencement; the growth of our wondrous dominion in India, with its eventual transfer of all authority in that country to the crown; with a host of minor transactions and enactments, which must all be regarded as, more or less, so many changes in or developments of the constitution, as it was regarded and understood by the statesmen of the seventeenth century. It has seemed, therefore, to the compiler of this volume, that a narrative of these transactions in their historical sequence, so as to exhibit the connection which has frequently existed between them; to show, for instance, how the repeal of Poyning's Act, and the Regency Bill of 1788, necessitated the Irish Union; how Catholic Emancipation brought after it Parliamentary Reform, and how that led to municipal and ecclesiastical reforms, might not be without interest and use at the present time. And the modern fulness of our parliamentary reports (itself one not unimportant reform and novelty), since the accession of George III., has enabled him to give the inducements or the objections to the different enactments in the very words of the legislators who proposed them or resisted them, as often as it seemed desirable to do so.
