Oliver Sangster is no ordinary man. As a renowned psychic, he deems his ability as a curse, rather than a gift. This incredible man foresaw catastrophic incidents such as 9/11, Chernobyl, Hurricane Katrina, the Tokyo gas attack, and many others. His notoriety in contacting the dead prompts police forces to utilise his skills, but the latest investigation into a murdered girl has tragic consequences. Professor Ferris-Browne is a sceptic and member of Csi, an organisation for debunking psychics. His obsession with denouncing Sangster as a fake leads to the psychic losing his wife and family, and his income from his shows. This book explores instances of spooky séances, hauntings, and the possibility that spirits do exist. A frightening, yet compulsive read!
