Secret Genealogy II: The Jewish Roots of Our Christian Ancestors Suellen Ocean

In *Secret Genealogy II*, not only does the author reach our ancient Jewish ancestry, but the gray area of interlocking tribes of antiquity, with whom many of us share our DNA. *Secret Genealogy II*, takes another deep look into the meanings of names in our family trees, continuing to explore the theory that America was built on a much stronger Jewish foundation, than what was originally thought by historians. This mesmerizing trail delves into the contradictions of American surnames and tries to answer some of the questions arising from the inconsistencies we run into when ancestry searching. When it comes to genealogy, why do families have so many secrets? What were they trying to hide? Why did they hide the country that they originally came from? Why say you're from Holland (Italy, Germany, or other) when you're not? Why did the family hide their original surname? And why did they change it? *Secret Genealogy II* helps you answer those questions.
