IEEE Std 242-1986. IEEE Recommended Practice for Protection and Coordination of Industrial and Commercial Power Systems (The IEEE Buff Book)

ANSI/IEEE Std 242-1986, the IEEE Buff Book, has been extensively revised and updated since it was first published in 1975. The Buff Book deals with the proper selection, application, and coordination of the components which constitute system protection for industrial plants and commercial buildings. System protection and coordination serve to minimize damage to a system and its components in order to limit the extent and duration of any service interruption occurring on any portion of the system. A valuable, comprehensive sourcebook for use at the system design stage as well as in modifying existing operations, the IEEE Buff Book is arranged in a convenient step-by-step format. It presents complete information on protection and coordination principles designed to protect industrial and commercial power systems against any abnormalities which could reasonably be expected to occur in the course of system operation.

From reader reviews:

Martha Wilson:

In other case, little folks like to read book IEEE Std 242-1986. IEEE Recommended Practice for Protection and Coordination of Industrial and Commercial Power Systems (The IEEE Buff Book). You can choose the best book if you like reading a book. So long as we know about how is important the book IEEE Std 242-1986. IEEE Recommended Practice for Protection and Coordination of Industrial and Commercial Power Systems (The IEEE Buff Book). You can add expertise and of course you can around the world by the book. Absolutely right, mainly because from book you can realize everything! From your country until finally foreign or abroad you will end up known. About simple thing until wonderful thing you can know that. In this era, we can easily open a book or even searching by internet unit. It is called e-book. You can utilize it when you feel uninterested to go to the library. Let's examine.

Jennifer Galaviz:

The book with title IEEE Std 242-1986. IEEE Recommended Practice for Protection and Coordination of Industrial and Commercial Power Systems (The IEEE Buff Book) contains a lot of information that you can study it. You can get a lot of gain after read this book. This book exist new expertise the information that exist in this publication represented the condition of the world at this point. That is important to yo7u to be aware of how the improvement of the world. This particular book will bring you inside new era of the globalization. You can read the e-book on your smart phone, so you can read that anywhere you want.

Shanon Stephens:

Would you one of the book lovers? If yes, do you ever feeling doubt if you find yourself in the book store? Try to pick one book that you never know the inside because don't ascertain book by its deal with may doesn't work the following is difficult job because you are scared that the inside maybe not because fantastic as in the outside look likes. Maybe you answer is usually IEEE Std 242-1986. IEEE Recommended Practice for Protection and Coordination of Industrial and Commercial Power Systems (The IEEE Buff Book) why because the great cover that make you consider regarding the content will not disappoint an individual. The inside or content is definitely fantastic as the outside or cover. Your reading 6th sense will directly make suggestions to pick up this book.

Flora Gordon:

Are you kind of active person, only have 10 or 15 minute in your moment to upgrading your mind talent or thinking skill even analytical thinking? Then you have problem with the book when compared with can satisfy your limited time to read it because this all time you only find guide that need more time to be go through. IEEE Std 242-1986. IEEE Recommended Practice for Protection and Coordination of Industrial and Commercial Power Systems (The IEEE Buff Book) can be your answer given it can be read by anyone who have those short free time problems.
